Learning Agents and Multi-Agent Systems - LeMAS 2017

The "Multi-Agent Systems and Learning Agents" Summer School intends to introduce students to the fields of multi-agent systems and machine learning, emphasizing the intersection between the two.

The summer school will include lectures held by researchers in the field, as well as hands-on sessions dedicated to creating practical applications, such as mobile agents for user assistance, image classification, context recognition, adaptive personal agents, and others.

The summer school is organized by the AI-MAS Laboratory at the Faculty of Automatic Control and Computer Science, Politehnica University of Bucharest.

It will take place in the PRECIS research center.
