

# Summer Schools for Summer of 2014

We are proud to organize a variety of summer schools during the summer of 2014. You may choose your favorite topic, such as 3D graphics, electronics, security, Android and many others.

Check out below the slides we used for presenting some of the summer schools in this year's „Stagii pe Bune“ event at the Faculty of Automatic Control and Computers.

Please find a detailed description of each summer school on its respective page.
