

Explore the World of Artificial Intelligence with Azure AI Summer School!

Join us for an engaging and hands-on experience at the Azure AI Summer School, a program designed especially for first-year university students who are curious about Artificial Intelligence and eager to discover how Microsoft tools can help them build smart solutions.

Course Overview: The Azure AI Summer School offers a beginner-friendly yet comprehensive introduction to the world of AI, focusing on core concepts, real-world applications, and practical experience using Microsoft Azure. Participants will explore a variety of tools and services, participate in interactive sessions, and work on guided mini-projects to apply what they learn in a fun and creative way.

Program Structure: • Dates: June 30th to July 12th • Schedule: o Weekdays (Monday to Friday): 6:00 PM – 9:00 PM o Saturdays: 9:00 AM – 3:00 PM • Tailored for first-year students from any technical program interested in understanding AI and its real-world impact • Hands-on sessions with tools like Azure Machine Learning, Azure AI Services, Power Platform, and Copilot Studio • On the final day (July 12th), participants will collaborate in a creative hackathon, where they'll team up to build practical and innovative AI solutions using the tools they've learned throughout the course.
